

TABLE of CONTENTS

Anthropometry Application for Flexible Chair College <i>Authors : Andarmadi JatiAbdhi Wasesa¹, Muhamad Abdul Jumali²</i>	1-6
Design and Selection of The Face Shield Materials as a Self-Protective Tool in Preventing COVID-19 using The Analytical Hierarchy Process Method <i>Authors : Marcy L. Pattiapon</i>	7-15
Manufacturing Process Application for Lecture Chair <i>Authors : Achmad Nidhomuz Zaman¹, Santika Sari²</i>	16-22
Aplication of Manufacturing System to Calculate Production Target Needs Pride Chair Design <i>Authors : ImronRosyadi N.R.¹, Matsaini²</i>	23-27
Quality Control Analysis to Reduce The Number of Defects in The Packaging of PG Kremboong Sugar Products Using Seven Tools Method <i>Authors : Yoniv Erdhianto</i>	28-35
Implementation of Food Safety Traceability Systems in The Product Supply Chain at PT. XYZUsing <i>Quality Function Deployment</i> (QFD) <i>Authors : Syafrilla Dinda Khumairo¹, Hana Catur Wahyuni²</i>	36-43
Design of Table Chair Flexibility Products Using Antopometry Methods to Minimize Land Use <i>Authors : Yanatra Budi Pramana¹, Indra Dwi Febryanto²</i>	44-48
Effect of Using Power Air Screw And Cyclone On Air – Fuel Equivalence Ratio And Monoxide Carbon Gas Emissions In Four Stroke Gasoline Engines <i>Authors : Syamsul Arifin</i>	49-54
Comparison of the Effectiveness of Natural Coagulant Performance on% BOD Removal and% COD Removal in Pharmaceutical Industry Waste <i>Authors : Agustin Maharani Z.P¹, Dwi Setiawan², Erlinda Ningsih³</i>	55-60
Patern of Worker Fatigue for Standing Position of Shopkeeper <i>Authors : Gempur Santoso¹, Prihono²</i>	61-64
